Preface

To the Forteenth Revised Edition

We are happy to present the revised edition of the book “**Corporate Accounting**” before the readers. The book has been thoroughly revised. While revising the book due weightage has been given to the suggestions made by our esteemed readers taking into consideration provision of the Companies Act, 2013, SEBI rules and regulations and Accounting Standards, wherever applicable. The whole book has been updated and corrections made wherever required. Theory and accounting treatment has been revised as per Accounting Standards – 4 (Revised) and Companies (Amendment) Act, 2019. Each aspect of a chapter has been discussed in detail in order to meet the requirements of the syllabus prescribed by different universities and professional institutes.

Salient Features of the Book

The following features are worth nothing in the present text:

- The illustrations and assignment material has been made to conform to the requirements of Schedule III of the Companies Act, 2013. The relevant problems/ solutions has also been revised.
- The revised revision of **Paragraph 14 of Accounting Standards — 4** concerning Financial Statements regarding Proposed final dividend has been incorporated at relevant pages and the illustrations amended accordingly.
- The relevant provisions of Ind AS — 7: Statements of Cash Flows dealing with Bank Overdraft and Proposed Dividend have also been taken care of in this book.
- In the chapter of Redemption of Debentures, the treatment of interest on Debenture Redemption Funds Investments or Profit (or Loss) on the sale of DRFI have been also summerised in the chapter.
- All chapters have been revised and udapted. Problem of each chapter have been suitably graded and edited to include questions of topical interest.

We are confident that the book in its revised form will be more useful for B.Com (Pass and Hons.), M.Com, M.B.A., C.A., I.P.C.E, C.A.(Final), I.C.M.A. (Stage II) and Company Secretaries (Executive Programme) Examinations.

Every effort has been made to avoid printing errors though some might have crept in inadvertently. We will be highly obliged if such errors, if any, are brought to our notice.

We eagerly look forward to the feedback from the academic community for improvement of the book which will be duly acknowledged.

Publisher

To the Thirteenth Edition

Corporate Accounting has been designed to provide conceptual understanding of fundamentals and to develop skills to determine business income and financial position in select types of entities, transactions and circumstances for studies of B.Com. and Corporate Secretaryship Revised Courses, of all Universities in A.P., T. N., Karnataka and Kerala.

Volume I of the Present book has the following features:

- Lucid presentation of the theory.
- Large number of graded solved illustrations.
- All the chapters have been revised to suit the needs of students at First Degree Level.
- The book now incorporates the changes necessitated by recent Regulations of Insurance Development Regulatory Authority.
- Every chapter has now learning objectives at the outset.

Volume II of the book has the following features:

- 32 Madras University Past Examination Problems and Solutions.
- All chapters have now objective type questions. Multiple choice questions have now been provided with four choices in place of three.
- Large number of unsolved practical problems with answers and hints.
- Latest University Examination Question Papers.
- A set of aids is provided to facilitate home-study by students. Some of these are: Problems arranged under suitable sub-heading; detailed answers given at the end of problems; hints and assumptions given at the end of tricky problems.
- The Scanner in Volume II of the book contains solely all the problems asked in past 25 examinations of B.Com. and B.A. Corporate Secretaryship of the University of Madras. One use of the Scanner is Examinations. Another purpose of the Scanner is to facilitate the work of the teacher and students in classroom. It is convenient to carry to the classroom. It can eliminate the need for dictating the problem before working it out on the blackboard. It will save time. More problems can be worked out in the classroom.

I eagerly look forward to the feedback from the users, for it provides the basis for future improvements.
